

Thank you and congratulations

I would like to thank all the Vietnam C4C participants who submitted Part I research grant proposals. The judges had a VERY hard time sorting through them and trying to pick out the best. We have limited funds so (sadly) could not choose/support all. I do want to congratulate those that *were* successful – Diep & Duong, as well as Dung, Thanh, Tuyet and Mai. Funding will shortly be released to enable them to conduct the qualitative and quantitative research required to complete Part II of their proposal needed to implement their projects next year. Well done all. We hope that they will keep us all updated on their progress through this platform. I would also like to again thank Long, Van, Huyen and Loren for all their support in this process.

I miss all the participants and have VERY fond memories of Vietnam.

Warmest best wishes

Paul
