

MASIPAG staff meeting on living bio beds

After our training in Hanoi, I attended our staff meeting and shared my experiences and learnings to my colleagues in MASIPAG - LUZON. Song visit to our office we're also discussed. An official e mail will be sent to Song regarding this matter. I would like to thank Mr Paul Butler of RARE for sending us the Miradi software for it would be of great help for MASIPAG in writing our proposal for Living bio beds campaign.
